

# CVS102-A Series

## Dual Camera Controller

**Your Car Vision CVS102-A Series Dual-Camera Controllers** have been designed to meet the challenges of today's mobile installation requirements. With heavy duty injection cast aluminum alloy cases and stainless steel mounting plates, they can be placed without concern of harsh environment. The H and XL versions can be mounted outside the vehicle, freeing up much needed interior space.

The combination of smart fuse and load dump circuitry protects critical components, even in the event of cable damage, while the back lit remote control buttons allow for easy visibility at night.

The optional integrated active radar component adds an extra margin of safety.

INTEC offers the most durable, most reliable products in the industry. Backed by unparalleled warranties and a dedicated engineering and sales team ready to solve your vehicle safety system requirements.
